A Christmas Present that is serviceable and elegant may be made with a slight expenditure of work and material.

al. It is equally well adapted for gloves and for handkerchiefs and makes a gift suited to the needs of either the fastidious man or the dainty woman.

Cut two pieces of cardboard of the exact size you wish the case to be and cover each with black satin on which you have embroidered yellow crosses and a yellow border in gold thread. Line each with yellow India silk and stretch across them bands of satin ribbon, as the diagram shows, which is precisely the method used in making the bill cases in vogue some years ago.

Overhand the ribbons neatly to the edge of the covered boards, and you will then find that whichever way the case is opened its contents remain smooth and neat, as it is the ribbons and not the articles they hold in place, which change from side to side.

At the center of each board on both its longer sides sew fast a handsome ribbon, by which when tied the case may be kept closed and free from dust, and when that last step is taken the work will be complete.

## FOR EVENING TIES.

A Neat and Useful Christmas Present For a Gentleman.

A useful handmade Christmas present to a gentleman is a sachet for holding white ties. This design is a German fancy and bears the national tree, the oak. A more appropriate decoration would be an ivy branch, which is the emblem of friendship. It is long enough to hold white ties folded in half and

broad enough for two to lie side by side inside it. The case opens in book fashion and the ties are kept in place by four straps of narrow white elastic, put across inside from side to side of the case, two near the top and two near the bottom. The outside cover must be of plain colored satin, embroidered, lined with quilted perfumed satin. The cone is edged with cord and the loops of the cord made at each corner.

## A Novel Button Bag.

"If you want to look right, sew your buttons on tight" is the motto painted in water colors on a novel button bag that is being finished for the holidays. The main part of this bag is one-half yard of two inch ribbon, and its construction is quite simple. Fold the ribbon in half, and in the fold place a spool of patent shot thread. Above it on the silk lightly mark a line in order that when a row of machine stitching is run across the spool will be held in place, but not so tightly that the thread cannot be unwound. Above the thread pocket make a similar pocket for the paper of needles, the one for the scissors, and above this join the sides of the ribbon to form a small bag. Turn down the rough edges of the ribbon and make a narrow casing in which a small cord is to be run. This not only draws up the little ribbon bag, but serves to hang up the entire article. To the back of the bag attach six buttonholed leaves of white flannel for the needlebook. The motto can first be outlined on the ribbon with a soft pencil and then embroidered in with silk. Bright red and olive green make a dainty, pretty bag.

## A Homemade Tape Measure.

An exceedingly pretty as well as useful adjunct to one's workbasket is a tape measure made from grosgrain ribbon to take the place of the usual ugly measure, which does not seem suited to the pretty baskets which are now so generally used. The measure can be made as long as one chooses, but for the one most generally used a yard and one-eighth of grosgrain ribbon three-quarters of an inch wide are needed. The ribbon, if a pale violet, should be marked off into quarter inches with violet ink, and the ends are fastened over little white sticks, which can be procured at any store where art notions are sold. The measure is made much prettier when tiny violets, outlined in ink, are scattered here and there on the ribbon.

## Hand Painted Gifts.

Picture or easel draperies make acceptable Christmas gifts—for instance, one of pale shrimp pink with Safrane and La France roses; one of gray blue silk with a flight of swallows, or of light golden olive with clematis vine showing rich, bronze green foliage and feathery white blossoms. Every one likes a hand screen to ornament the mantel or to shade the face from the blaze of the open fireplace. Exceedingly pretty ones of satin with gilt handles may be bought ready for decorating at a reasonable price. If a Watteau group can be copied from an old fan, no pattern book can be found. Could and

should be done easily.

Saginaw, Nov. 23.—Dr. Lewis, of this city, has reported another most wonderful cure through the use of the much-talked-of remedy, Dodd's Kidney Pills. Having been thoroughly convinced of the unquestionable merits of this remedy when tried in the case of Mr. Charles C. Carter, whose radical cure of Bright's disease is well known he prescribed them for Mr. Jerome B. Wilhelm, 1320 Ames street, a war veteran, 55 years of age, who is receiving a pension from the government for disability, and who had been treated six months by Dr. Bliss for that most alarming trouble, heart disease.

Mr. Wilhelm says he had not been taking Dodd's Kidney Pills three days after the doctor prescribed them until he felt so much improved that he could hardly realize the change. He is now entirely free from the pains in his back and in the region of his heart, and can eat well, sleep well, and feels that he is entirely cured.

He had given up hope and as a last resort was making preparations to go south to regain his health, when Dr. Lewis prescribed Dodd's Kidney Pills, which cured him.

It is believed that this proves there is no case of Bright's disease, diabetes,

heart disease, dropsy, or any other disease caused by disordered kidneys or impure blood which Dodd's Kidney Pills will not cure, as not one single failure has been reported.

Overhand the ribbons neatly to the edge of the covered boards, and you will then find that whichever way the case is opened its contents remain smooth and neat, as it is the ribbons and not the articles they hold in place, which change from side to side.

At the center of each board on both its longer sides sew fast a handsome ribbon, by which when tied the case may be kept closed and free from dust, and when that last step is taken the work will be complete.

## FRANCHISE GRANTED.

Excelsior Gas Company's Request  
is Granted by the St. Joseph  
Council.

## LITTLE OPPOSITION TO IT.

System Must be Completed in St.  
Joseph by September 1 or  
Franchise is Revoked.

The St. Joseph city council last night  
granted the Excelsior Gas company a  
franchise to construct a system of gas  
works in that city; to use the streets  
and alleys for mains and conduits and  
enjoy all the privileges that other  
cities extend to gas companies.

The Excelsior company is required  
by the franchise to complete the con-  
struction of the system in St. Joseph  
by September 1, 1898, otherwise the  
franchise will be null and void. This  
requirement is practically the only  
change made in the measure, as it first  
appeared before the city council a week  
previous.

This alteration was perfectly acceptable  
to the company, according to Secretary J. Stanley Morton, who stated  
that if the franchise was procured the  
company would enter upon the con-  
struction of the system May 1, next,  
and it was expected that the work  
would not require more than 60 days to  
complete.

The franchise was the first and the  
only matter to come before the council.  
It was expected that the measure  
would be defeated and it would if Aldermen Rice and Swigert could have  
had their way. They fought it with un-  
becoming desperation, the former being  
as bitter against it as he was enthusiastic  
over its passage a week before.  
He had experienced a decided change  
of heart.

After the reading of the franchise by  
the clerk it was proposed by Alderman  
Barnes that a time be stipulated when  
the system was to be completed. The  
franchise, he said, covered a period of  
30 years and provided for the begin-  
ning of work May 1, 1898, but made no  
provisions regarding the extent of time  
to be allowed in the construction of the  
system.

Secretary Morton suggested that  
"May 1, 1898" might be erased and a  
clause inserted requiring completion  
before September 1, 1898. This change  
was made and no further fault was  
found with the measure except that the  
word "boulevard" was stricken out  
of the section designating the places  
where the mains and conduits might  
be laid.

A recess was proposed by Alderman  
Doyle and after a short conference the  
aldermen resumed their seats. Alderman  
Rice proposed that the franchise be referred  
to the city attorney for correction.  
Alderman Swigert supported the motion,  
and a vote on the same determined that Rice and Swigert stood  
alone on the proposition.

Councilman Freitag moved the passage  
of the measure and on that motion Doyle,  
Wilkinson, Barnes, Reeves, Freitag and Brown voted yes, and Rice  
and Swigert opposed it. Mr. Norton  
thanked the council for its action and  
predicted that its members would never  
have occasion to indulge regrets over  
the stand they had taken.

The council will meet tonight to act  
on the recommendation of the board of  
public works that the sewer contract  
be awarded John Hitt, of Chicago,  
whose bid was \$10,000. Mr. Hitt pro-  
poses to complete the contract this  
winter.

## A GOOD SPEAKER.

STEPHEN DOUGLAS WILLIAMS IS  
LOGICAL AND CONVINCING

He Entertained a Fair Sized Audience  
in Conkey's Hall Last  
Evening.

Stephen Douglas Williams, of Grand  
Rapids addressed a fair sized audience  
in Conkey's hall last evening, taking  
for his subject "Bimetallism." He  
is a good speaker and his talk last night  
was conclusive evidence that he has  
given the subject much careful thought  
and study.

The meeting last night was called to  
order by Chairman Baker of Coloma  
who introduced the speaker. Mr.  
Williams opened his remarks by saying  
that he did not come before the people  
to tell funny stories or to abuse the  
men who had different views than his  
own, but to tell plain truths backed by  
plain and reliable figures which any  
man could understand if he cared to.

Mr. Williams said that while the  
country was experiencing better times  
just at present it was not due to the  
restoration of confidence but to the  
fact that the wheat crop in every  
country but ours was a failure and that  
as a result the farmers received a better  
price for their products. They could  
afford to purchase goods from the mer-  
chant which had laid upon his shelves  
for years. The merchant in his turn  
could give an order to the manufacturer  
but he could put idle men to work.  
But what about another year? Other  
countries may have an abundance and  
then where will the American farmer  
be in exactly the same place as he  
was before.

He spoke to considerable length  
upon the money and banking questions  
and was several times interrupted with  
applause from the audience.

There will be no school after Wednes-  
day until the following Monday.

Mr. Lockard visited the High school  
on Tuesday. He is visiting his daughter,  
Miss Abbie Lockard, teacher of the  
second grade at the Central building.

All the rooms of the various school  
buildings were disinfected on Monday  
evening.

## Fiction's Unjust Treatment of the Rich.

A grievance that has been treated  
very injudiciously in many works of  
fiction is in the relation of the rich to the  
poor. Absolutely false ideas as to how  
the rich get their wealth and what  
they do with it when they get it have  
been persistently floated by novelists, for  
whom (as for the journalist) a millionaire  
is always fair game. It is not worth  
while to expend any sympathy upon  
the millionaire in this matter, as they  
can struggle along under a considerable  
weight of vituperation, but the rest of  
us cannot afford to be put continually  
in a false attitude toward wealth.

Hated or envy of the rich is not a pleasurable  
companion for our leisure hours, and  
the poorer we are the less pleasant  
company it is likely to be. It interferes  
with our working to the best advantage  
and cuts us off from opportunities of  
acquiring the very wealth that  
might ease our pains.—Doch in Ladies'  
Home Journal.

## Night Photography of the Future.

These night pictures suggest all sorts  
of valuable and interesting possibilities.  
We may before long be able to photo-  
graph the crowds and scenes around the  
bulletin boards on election night, the  
frantic enthusiasm of a great outdoor  
political meeting and other great gather-  
ings. Many memorable scenes, by the  
use of the camera at night, can be made  
a part of permanent history in all their  
details that now can only be generalized  
by the rapid pen of the artist. No one  
who has ever observed the streets of a  
city on a stormy night can have failed  
to be impressed with the unique pictures  
presented by the shiny pavements, the  
dully glowing lamps and the ever  
passing gleams and flashes that come  
from the street cars and the rumbling  
buses.—James B. Carrington in Scribner's.

## Up to Date.

"Mamma," said little Freddy ex-  
citedly, "the ferryboat we were on almost  
ran into another ferryboat while  
crossing the river."

"Did it?" asked mamma anxiously.

"Yes, indeed. I'm sure there would  
have been a collision if the other boat  
hadn't back pedaled."—Harper's Ba-  
zard.

a Good Old-Fashioned  
Way.

## A COLLECTION FOR THE POOR.

Church.

There will be five distinct Thanks-  
giving services in this city tomorrow.  
The services of the day will begin at  
8 o'clock at St. John's church with the  
mass of Thanksgiving. The members  
of the choir are urged to remember  
the service and the hour. The next  
service comes at 10 o'clock at the Holy  
Trinity Episcopal church. At 10:30  
o'clock there will be held a service in  
the Baptist church for children under  
10 years of age. At the same hour occurs  
the union service at the Congregational  
church at which Rev. E. A. Hoffman,  
of the Presbyterian church will preach.  
A collection will be taken at this service  
for the poor.

Following is the program for the day  
at the A. M. E. church:

There will be a feast at the A. M.  
E. church Thanksgiving day. Preaching

## NEW BOAT LINE.

Mystery As to Who Is Back of the Pro-  
ject.

It is learned from one of the farmers  
who has been several times sought out  
and asked to sign the agreement to  
ship by the new steamboat line, pro-  
posed for next year, that the gentlemen  
who are making the canvass refuse to  
say what boat company is back of the  
scheme. The rates are to be the same  
as those now in force and the new line  
will stop its boats at St. Joseph. One  
of the managers of the Fayette line,  
which carried fruit from this port this  
summer, is working up the contracts  
for the new line.

WEDNESDAY, NOV. 24, 1897.

THE EVENING NEWS will not be issued on Thanksgiving day. The paper appears in enlarged form tonight for the purpose of giving our readers some specially prepared Thanksgiving matter.

THANKSGIVING DAY.

All the nice things that it is possible to say about Thanksgiving day have already been said. The governor of Michigan and of other states have begun to steal the proclamations issued in bygone years, an acknowledgement that there is nothing more that can be said.

For years people have talked about Thanksgiving day, and long sermons have been preached about helping the poor, dismissing in time for the congregation to reach home to eat a dinner such as delights the traffickers in specialties for dyspepsia.

The real Thanksgiving comes to those who are permitted to gather about the old firesides; it comes to those who by unseen and untold deeds have spread about some unthankful home those things that transforms it into the thankful home.

Much has been said against the custom of having the greatest games of football on this holiday. THE EVENING NEWS believes that football is brutal but no more so than the Thanksgiving practice of filling up one's stomach with indigestible food. More lives have been ruined and lost from the effects of Thanksgiving dinners than from football.

The holiday should be spent in giving thanks, in helping the weak and smoothing rough places, otherwise its name should be changed or the day abolished altogether.

A GREAT political scheme is being hatched at Washington. An effort will be made to nominate Bryan without holding a national convention. An effort will be made to have the state conventions adopt the Chicago platform without change, instruct their delegates for Bryan and allow that gentleman to pick out his running mate.

GENERAL Weyler has landed at Barcelona and he received a royal welcome. Men like Weyler are always able to gain the adoration of Spaniards, while men of worth like Columbus find no honored room on Spanish soil. Butcher Luetgert would be a hero if he would transfer his residence to Spain.

THE Hon. N. A. Hamilton is or ought to be thankful that "as her charms matured" he still survived.

I am a man for the work I would undertake. I come of a medical family, my father, brother and many relatives being physicians. I have attended and hold credentials from leading homoeopathic and allopathic medical colleges. For eighteen years I have successfully conducted a large practice. I have held high office in State and National medical societies, and received honorary professional recognition from abroad. I have had considerable hospital experience, am something of a medical writer and author, and have been professor in reputable medical colleges.

These frank statements can be easily verified. If they commend me to your confidence it will give me pleasure to professionally advise and assist healthward all who need and desire my services.

I am prepared to and will practice all branches of medicine and surgery, but because of special research, experience and success in this direction, greatly prefer and particularly invite those suffering from obscure, complicated, delicate, and all chronic or lingering diseases to consult me. #### Piano Tuning.

To accommodate his new and old  
patrons in Benton Harbor, St. Joseph,  
Berrien Springs and elsewhere, Mr.  
Astensis, the tuner so well known in  
this city and vicinity, has secured the  
services of his brother, J. G. B. Astensis,  
who will take full charge of all the  
tuning (piano, reed and pipe organs)  
for A. O. T. Astensis during the month  
of December. Pending business eng-  
agements, requiring the presence of  
Mr. Astensis in Chicago during Decem-  
ber, compel him to adopt the above  
plans.

It will be remembered that J. G. B.  
Astensis was here helping his brother  
tune the pipe organ in the Catholic  
church in St. Joseph about two years  
ago, besides doing other difficult work  
demanding the attention of the two.  
Mr. Astensis will spare no effort to in-  
sure perfect satisfaction to all patrons.  
He will start his busin ss trip in Michigan  
about November 30, and expects to arrive in  
Benton Harbor about December 12. He intends to have all work  
completed in time for Christmas and  
the holidays.

The Astensis men are experts in  
their line of business. Orders may be  
left at Mrs. F. B. Cary's piano studio,  
in Mills building or address lock box  
1134. Mr. Astensis will stop at Hotel  
Benton. 40665.

#### BRAVE BOYS.

THEY BARE THEIR ARMS TO RE-  
LIEVE THEIR PLAYMATE.

Eminently Successful Operation of Skin  
Grafting Performed by Dr. George  
Bell Upon Ewart Foster.

Saturday five of the playmates of little  
seven-year-old Ewart Foster, who  
was so shockingly burned last summer,  
bare their arms and suffered a surgeon's knife to carve from their flesh  
small pieces of cuticle to aid in healing  
the wounds of their sorely afflicted  
companion. The brave little fellows  
who made this sacrifice are Roy and  
Floyd Bateman, Frank Soules, John  
Chadlock and Downie Miller.

Ewart, the little sufferer, is the son of Mr. and Mrs. Edward Foster. August 28, last, he was frightfully burned.  
He was building a bonfire when his clothing caught fire and his body was literally cooked before relief was had.

Dr. George Bell has attended the case  
and although it was the prediction of  
every physician who saw the boy that he  
could not recover the wounds are  
nearly all healed and the little fellow  
is as cheerful as his healthier companions.

Dr. Bell has twice found it necessary  
to graft skin to the right leg from  
which the skin was burned from the  
hip to the foot and presented a horrible  
appearance. The skin grafting process  
has been remarkably successful and the  
member is nearly healed over.

The recovery of the patient under the  
great odds against him is a marvel to  
the medical profession who knew his  
condition. A great cooked surface ex-  
tending almost around the entire body  
is almost healed and one arm and both  
hands, which were frightfully burned,  
present a very natural appearance con-  
sidering their former condition.

The success of Dr. Bell in the treat-  
ment of the boy speaks volumes in  
commendation of his skill.

#### YOU'LL LAUGH

If You See the "Obstinate Family"  
This Evening.

The ladies of the Universalist church  
are very fortunate in having arranged  
a delightful entertainment for this

evening, Nov. 24, at Conkey's hall, at  
which time will be presented a very  
amusing, laughable farce, entitled  
"The Obstinate Family" or "A Woman's  
Won't."

The plot is laid about the Harford's  
dinner table and shows how slight an  
occurrence will suffice to disturb the  
domestic tranquility of a whole household.  
The situations involved are ludicrous,  
laughable in the extreme, more par-  
ticularly so to those who have experi-  
enced the force of a husband's or wife's  
whim.

Rehearsals are being held every day  
and with faultless costume and appro-  
priate stage settings, the piece cannot  
be but a great success.

The following is the full cast:

Lucy, a servant, Miss Adeline Graves  
Mr Harwood, Harford's father-in-law,  
Mr Charles K. Farmer  
Mrs Harwood, Harford's mother-in-law,  
Miss Anna Watson  
Henry Harford, Mr. Frank P. Graves  
Jessie Harford, his wife, Mrs Alice Hood  
Jaures, Harford's servant, Mr Floyd Daigneau

Admission 10 cents. After the enter-  
tainment refreshments will be served and  
dancing, with excellent music, will  
be provided.

IN HOLLOW LOGS.  
Counterfeiter's Tools and Bogue Dollars Found.

Frankfort, Nov. 24.—While hunting in Gilmore township Monday, Robert Gallagher and a companion came upon a full kit of counterfeiter's dies, and tools, secured in hollow logs. There were 15 or 20 silver dollars and half dollars with the tools. Detectives think they now have clues to the makers of bogus coins circulated along the line of the Ann Arbor railway this summer. Part of the gang was arrested at Cadillac last March.

**PING'S ASPHALT COMPANY.**

Grand Rapids, Nov. 24.—In Governor Pingree's Asphalt Mining company, now being organized with \$75,000 capital, Railroad Commissioner Wessells of this city, will take a slice, but not a big one. General Case of Three Rivers will go in for \$5,000. Qua to master-General White, however, will not induce

The bulk of the stock, however, will be held outside official circles. Detroit capitalists taking a large block, and outside investors also taking considerable.

**NOT PATRIOTIC.**

**Women Thus Called Who Fight Female Suffrage.**

Grand Rapids, Nov. 24.—Miss Mary Hay, of Indianapolis, who conducted the campaign in California, presided over the national woman's suffrage conference last evening. She gave the anti-suffrage society, of New York, a hard rap, saying that it was composed of foreign aristocrats not in touch with the women of this country.

Miss Emma E. Bower, of Ann Arbor, said the number of women wage-earners in the state, according to the state census, is upwards of 90,000, and they are employed in 232 occupations. They need the ballot to preserve their rights.

A poem composed for the occasion as a tribute to Susan B. Anthony was read, and addresses were given by Susan B. Anthony and Carrie Chapman Catt, of New York.

**THE HOTTEST BLAST YET.**

**It Is Delivered by Insurance Commissioner Campbell.**

Lansing, Nov. 24.—The Capital Life association, of Washington, which succeeded to the "old graveyard company," of Elkhart, Ind., when it had run its course, is now about to give up the ghost and is endeavoring to have its policyholders reinsurance in the Old Wayne Mutual Life association, of Indiana.

The thousands of policyholders in Michigan are flooding Commissioner Campbell with inquiries as to the standing of the Old Wayne. Yesterday morning the commissioner issued the following with reference to the Washington and Indiana companies:

They are both graveyard concerns. The National Life has swindled about as many as it can in its old attire and now seeks another garb in which to pursue its deception and fraud.

They are neither of them authorized to do business in this state, and any information you or anyone else can give me that any agent is acting or soliciting for them in Michigan will be cheerfully received.

The very fact that these sneaking scoundrels seek to insure the lives of our old people, without their knowledge or consent, without an examination, and for the benefit of anybody who will pay a premium, ought to be considered a moral crime and subject both parties to punishment.

Better wait and sell the bodies of our fathers and mothers as cadavers than to make a contract placing premium on their death, and of which they are kept in ignorance.

These gents (calling themselves companies) are worse than thieves, for they not only swindle those who pay, but make human life a subject of barter between parties to whom it does not belong.

**Michigan Pensions.**

Craig, Hastings; John M. Merrill, Excelsior. Supplemental—Henry Rose, Horsey, Increase—Peter J. Montgomery, Saginaw; E. S.; George W. Skinner, St. Louis; Jacob Keween, Peterburg; Joseph Bookler, Pine Creek; Widows—Minors of Frank C. Dillenback, Grand Rapids.

**New Michigan Postmasters.**

Washington, Nov. 23.—Postmasters commissioned: John P. H. Kenyon, Freeport; Terry Corlies, Mayville; Alvin D. Clark, North Star; Samuel J. Minamaker, Gibson; Nellie H. Talcott, Ox Bow; William F. Sawday, Somer-set Center; Joseph S. Flammer, Woodmere.

Seventy-five medical students from the Medical missionary college of Battle Creek, have gone to Chicago to attend clinics and to get some practical experiences in the slum work of that city. Forty students from the Bible school have also gone to that city to do canva-sing for the Adventists.

The Paris exposition craze has struck Battle Creek. Many of our citizens are going to take it in and as a preparation have organized French clubs throughout the city and are studying French. French socials are also a fad, where no one is permitted to speak except in the French language.

The promised prosperity seems to have struck the farmers of Huron county in good shape. One hundred and ten mortgages were discharged there between October 10 and November 1.

Louis Garrison, clerk at the Forest City house, at Bay City, ejected one Dan Trombley from the hotel yesterday morning at 1 o'clock. Trombley turned to Garrison with a look of alarm and said: "I am a man of honor."

**Bobby Burke Didn't Elect His Congressman.**

Chicago, Nov. 24.—Henry Sherman Baute, the republican nominee, was elected a member of congress from the 6th district yesterday, receiving 10,212 of the 19,902 votes cast. His plurality over Vincent H. Perkins, the democratic nominee, was 853, and he received a clear majority of 522 over all his competitors. The vote cast represented but 41 per cent of the total vote in the district cast for the presidential nominees in November, 1896.

Both sides claim victory; the republicans because their man was elected, and the democrats because, they say, the percentages taken in connection with the light vote cast, show democratic gains as compared with the figures of the last presidential election.

The republicans did not fail to give a large share of credit for their victory to the anti-Burke democrats of the 22nd and the anti-Burke democrats.

They were shouting last night: "We did it; we did it; we have knocked Burke out!"

**JUDGE GARY.**

**Anarchist Judge May Try Luetgert Next Time.**

Chicago, Nov. 24.—If as much difficulty is experienced in finding a second Luetgert jury as has been encountered in the work of selecting a judge the Lake View sausage-maker's second trial may not be concluded before Thanksgiving day in 1898. Of the five judges now holding daily sessions in the criminal court building hot one proved acceptable to both the state and the defense. The people vs Adolph L. Luetgert had been an entry on Judge Horton's docket until it became a sort of bugaboo for one-fourth of the judiciary of the county, and, as something had to be done with the case during the forenoon yesterday, it was provisionally transferred to Judge Joseph E. Gary, the venerable jurist whose rulings in the celebrated trial of the Haymarket square anarchists brought him prominently before the public ten years ago.

Judge Gary is said to be acceptable to Luetgert as well as the state's attorney.

Though he is more than 70 years old, he has expressed himself as not unwilling to hear the case. To determine whether his duty required him to

take up the trial, he told State's Attorney Deneen late last evening he would consider the matter overnight.

**CONFESSED.**

**Texas Criminal May Save the Life of Durrant.**

Morgan, Tex., Nov. 24.—In March last in the columns of a Houston paper

was noted the death of Joseph B. Blanther, alias Forbes, who committed suicide in the Meridian jail on March 2. Though escaping the keen vigilance of the most famous detectives of the country, Bosque county was the scene of the ending of his eventful career.

Developments of the past few days bring to light even a more startling crime of which he is self-confessed than was the murder of Mrs. Langfeldt for which he was hunted. While Blanther was incarcerated in the Meridian jail there was also a fellow prisoner named Pitts, who was arrested on some minor charge, and occupied a cell adjoining that of Blanther. Pitts is a farmer who lives near Iredell and is known to have conversed with Blanther during his last two or three days' confinement.

Following is the Blanther letter:

Meridian Jail.—To Mr. Pitts: As this is my last day on earth, I wish to say that I cannot die without telling a truth. I murdered Mrs. Langfeldt, also Blanche Lamont and Minnie Williams. I put this in your coat pocket and hope you will find it in time to save the life of Durrant. It may also be of service to Mr. Womack in getting his reward money. I want you to have my watch for your kindness to me. You have my best wishes, and I hope your troubles will end, but not as mine.

**OLD MAN'S DARLING.**

**Mrs. Cassius M. Clay Tired of Playing**

**ing That Part.**

Whitehall, Ky., Nov. 24.—The report that General Cassius M. Clay had Rev. Gwen Young, of Buffalo church,

which his wife attends, go to her and try to persuade her to return to his home, is not true. That the minister did try to get the girl to go back there appears to be no doubt, but General Clay never asked him. Other friends also tried to persuade her to return, but all this persuasion was done without the knowledge, or consent of the aged husband.

The first time Mrs. Clay left him two

years ago. She then went to John Biggerstaff's, and while there many persons tried to prevail on her to return. She laughed at them, saying she did not want to be tied to the old general; that she wanted to be with young people. Each time she has left him it has been the same way, but she is deaf to all entreaties and continues to do as she pleases.

Last night General Clay slept but a few hours, because he was wondering why Dora had not come Sunday or Monday, as she promised. Yesterday he took up an idea that some of his enemies were plotting to burn his magnificient residence and today he had workmen busy putting iron on the doors to prevent anyone from setting them on fire from the outside.

James Laughlin, married and living on Lincoln avenue, had his left shoulder dislocated and two fingers of his left hand crushed in an accident at Allmendinger's ship yard this afternoon.

The injuries were caused by the breaking of the sweep of one of the captains in use in lifting the steamer Williams from the canal to the way for rebuilding.

The injured man was taken to Dr. John Bell where his wounds were dressed.

### IS GENEROUS.

**M. B. H. & C. Railway Donates Sunday's Special Service.**

The special train over the Milwaukee, Benton Harbor & Columbus railway which carried the famous Chicago surgeon, Dr. Steele, from Buchanan to this city to operate on Frank Mullin was donated by the company and for the service no remuneration whatever will be asked.

The train was engaged by Dr. John Bell and when he enquired of President A. A. Patterson the expense of the special service that gentleman informed him that the accommodation was granted gratuitously. It is a courtesy that Mayor Bell, as well as all who were benefited by it, greatly appreciate.

### WILL POISON YOU!

**Don't Put Excelsior Water in Cans With Metal Tops.**

Manager Peter English, of the Excelsior mineral water company urges with much earnestness against the placing of the mineral water in cans with metal tops.

There are properties in the water that create poison when it comes in contact with metal and those who have had the water standing in cans lined with metal are advised to throw it away.

He also states that the use of jugs is dangerous as the water eats the lining off and forms a liquid which also is poisonous.

The company is preparing to condense the water in wooden tanks heated by steam and the salt will be sold in the form of tablets.

### Lowell and the Boy.

An author whose home was in a country town had planned a day's outing in Boston. He intended to transact a little business, see a few sights and crown the day by attending a reception given to James Russell Lowell. He had made up his mind, after some consideration, to take his little son with him for an early glimpse of distinguished society. Of course the small boy, who had never before been in the city, was delighted, and in due time the pair set out.

On their return the other members of the family clustered about them, and as they unwound the little fellow from his heavy furs and mufflers he was asked eagerly, "What did you see in Boston?"

"We thaw," came the answer in a breathless burst, "the anacondas and the fat woman and the Living Hercules."

They had been to a museum of curiosities, as well as to an author's reception, and—according to youthful rules of precedence—Mr. Lowell naturally ranked a long way after this renowned trio.

Nevertheless the boy bore away two distinct memories of the poet, though in the first it is probable that the Living Hercules had his share, having doubtless suggested the topic of conversation, which was physical strength.

Mr. Lowell had narrated to his open mouthed, small auditor an anecdote of a prizefighter who, in danger of being run over in a crowded London thoroughfare, had knocked down and killed a horse with a blow between the eyes.

His other recollections are of his own pleased embarrassment and the insistent cordiality of the poet—so often spoken of as overparticular and fastidious—who would shake hands with him, extending for the purpose a hand faultlessly gloved in gray kid, which clasped without reluctance the child's hesitating, fuzzy paw, clad in a woolen mittion, sticky with recent molasses candy—Youth's Companion.

## DIVIDEND PAID

Depositors in the First National  
Bank Made Happy.

Unlucky Friday Had No Terror for  
Certificate Holders.

There Was a Crowd Without Jam  
or Excitement.

Sketch of the Receiver, General D.  
B. Ainger.

Depositors in the defunct First Na-  
tional bank received their first divi-  
dend of 30 per cent today, and many  
thousand dollars were put into local  
circulation.

There was nothing that resembled  
a football rush about the bank. Before  
the doors of the institution were opened  
at 9 o'clock there was no crowd, in  
fact no individual, in waiting for the  
inside bolts to move back. With the  
first swinging of the door people came

GENERAL D. B. AINGER.  
Receiver First National Bank.

from every direction and the receiver  
and his assistant were kept busy all  
day. At times the bank was crowded  
but the depositors maintained that  
patience and calm dignity that have  
characterized them since the bank  
failed.

The people who drew their money  
used it in paying off debts or placed  
it on deposit at the other banks.

### GOOD WORK OF THE RECEIVER

Early Dividend Largely the Result of  
Gen. Ainger's Work.

The first dividend of 30 per cent paid  
the depositors of the First National  
bank today was declared in an unusually  
short time after the failure of the bank.  
When the bank doors closed on Septem-  
ber 17 there was less than \$3,000 in  
the vaults. About the first of October  
General Ainger took charge of the  
bank as receiver, and in this short time  
besides paying current expenses he  
has collected about \$27,000, the amount  
needed to pay the 30 per cent when all  
the claims are proven. The first lot of  
checks amounting to about \$20,000 is  
being paid today and the supplementary  
checks in favor of depositors who  
proved their claims late, will arrive in  
a few days. Much of the best paper of  
the bank has not yet matured and some  
of the accounts which the receiver has  
collected were not gilt-edged.

Gen. Ainger has won many thanks in  
his able management of the affairs of  
the bank. The following sketch of  
him from the souvenir edition of the  
Lansing Republican will interest all  
the people of the community:

"There is no more important office in  
the state of Michigan than that of  
banking commissioner, within whose  
care comes the banks of the state, with  
total resources of nearly \$1,000,000. It  
is an office which calls for unsparing  
fidelity, a thorough understanding of  
systems of finance, a strong will power  
and an honorable reputation that will  
inspire confidence in the official acts of  
the commissioner."

"In the appointment of Gen. D. B.  
Ainger as banking commissioner, Governor  
Rich exercised a care for the inter-  
ests of the people in the banks of  
the state, and a discrimination in the  
selection of a commissioner, that re-  
flects credit upon him as an executive  
officer."

"In his capacity of national bank ex-  
aminer, to which he was appointed by  
Comptroller Edward S. Lacey, during  
the administration of President Harr-  
ison, Gen. Ainger acquired a thorough  
knowledge of finance and an experience  
in the examination of banks that  
well qualified him for the position of  
banking commissioner of Michigan,  
and had he not been again called to the  
broader field of usefulness as a national  
bank examiner, the state would have  
profited and her banking system be-  
come more perfect under his wise di-  
rection. As national bank examiner he  
examined many hundreds of banks in  
Ohio, Tennessee, Kansas, Oklahoma,  
Indian Territory, Maryland and Mich-  
igan, in a manner so highly satis-  
factory to the treasury department as to  
make a call for his services desirable  
again, likely on the part of the re-

publican party to control of the gov-  
ernment. And it is claimed for him  
that his reports were not only partic-  
ularly accurate, but that no bank which  
he examined, failed afterwards without  
his reports having given warning of  
their unsafe condition.

Gen. Ainger is a native of Ohio, and  
was born at Bellevue, March 9, 1844.  
He has in several instances rendered  
honorable services to his native state,  
his adopted state of Michigan, and to  
the government of the United States.  
He had not yet attained his majority  
when the war of the rebellion broke  
out, but he enlisted as a private in the  
Twenty-third Ohio Infantry, a regi-  
ment in which he had as comrades in  
arms Rutherford B. Hayes and Will-  
iam McKinley, both of whom have  
since been deemed worthy of promotion  
to be presidents of the United States.

"After the war he became a newspaper  
publisher, and for a number of years published newspapers in Ohio  
and Michigan. Under the administra-  
tion of President Hayes he was post-  
master of Washington, D. C., and contin-  
ued in the position under President  
Garfield. As already stated, he was ap-  
pointed national bank examiner during  
administration of President Harrison.  
From 1887 to 1891 he was adju-  
tant general of Michigan, by appoint-  
ment of Gov. Luce, and for the past  
four years he has been deputy auditor  
general of the state.

## TO TALK HERE FREE

Coloma Citizens Negotiating With  
the Twin City Telephone  
Company.

## SOME TALK OF LOCAL CIRCUIT

If the Scheme Carries St. Joseph  
and Benton Harbor Will Re-  
ceive Benefit.

Coloma, Nov. 26.—Dr. W. A. Baker,  
president of the village, is interested  
with other leading citizens, in a move  
to establish a local telephone circuit  
to include Watervliet, Paw Paw lake  
and Coloma, with a "central" and  
"hello girl" stationed either at Water-  
vliet or Coloma.

The new circuit is to be a part of the  
Twin City system and subscribers  
will be given the privilege of talking  
with Benton Harbor and St. Joseph  
without extra charge.

The Coloma people realize that they  
cannot accomplish any work of this  
kind without the co-operation of the  
Twin City telephone company. How-  
ever, officials of the company have  
hinted that the hope can be realized  
and the suburban circuit established  
if the two villages and the lake would  
sign contracts for twenty telephones at  
the regular rates in force in the two  
cities at the lake.

It is claimed that this condition can  
be easily met and that the suburban  
circuit will be built in the spring. The  
people are enthusiastic over the pros-  
pect.

Analyzed critically, "everybody" in-  
cludes his competitors. These sales are  
growing in popularity!

### A DRAMA OF THE SEA.

Deeply touched and still quivering with emotion, I write these lines.

Many and full of terrors are the sea tragedies enacted on this island, that is nevertheless rightly named the "beautiful."

Its lovable and courteous inhabitants are divided into two distinct classes—farmers and fishermen.

The former plant wheat, corn, oats and potatoes.

The latter catch the sweet fleshed tunny fish, sardines and lobsters.

Neither farmers nor fishermen ever become rich, and meat is almost unknown in their homes.

The people are, therefore, far from strong, the women especially being tender and delicate, with straight noses, slender, graceful necks and a slow, aristocratic carriage.

The men are of medium height and well built, but lack the vigor characterizing the peasants of Normandy.

The islanders are proud and never beg. A careful observer cannot fail to notice that among the many wrinkles which give character to their faces those written by laughter are wanting.

Both men and women have a serious and melancholy air, and their foreheads seem burdened with sad memories or a certain restlessness. Has not each one a father, a brother, or a son on the malignant water that lies out there—out there—encircling the island everywhere as far as the eye can reach?

Here these people have lived for centuries surrounded by a moving, agitated cemetery that smiles so alluringly and at the same time so savagely.

Occasionally the laughter of a child in one of the huts bubbles out toward its mother working in the fields. Her face lightens up for a moment, but she dare not seem happy, for as she turns there lies the sea, and its waves sob as they roll at her feet.

Yesterday there stood near me a dainty little girl of 13. She shaded her eyes with one hand in order to watch as long as possible her brother, who was walking down the street leading to the harbor of Bordery. Soberly as a matron she called after him: "Be careful of yourself and do not take cold. Au revoir! Good catch!"

The boy disappeared, and his sister returned to arrange her little household for the home coming of both her brothers, as the three were orphans to whom the state paid a small pension.

The girl was dressed in mourning. Father and Mother Gouenantin having died two years before—he in the hospital after 12 days of cruel suffering caused by the poisonous sting of a fish, she a few days later from consumption and grief.

Yes, there they lived, the three orphans. The elder brother, aged 18, had arisen at daybreak to be ready for his share of sardines, and the other, a lad of 15, was just to depart with his cousin Pierre-Marie to catch lobsters.

The three companions, Pierre-Marie Gouenantin, Eugene Gouenantin, the orphan, and Michel Samzon, boarded a little boat, L'Enfant du Desert, hoisted its pale blue sail and disappeared.

The heavens were slightly misty, the wind came out of the west, and I, sitting on the rocks, looked before me, dreaming the endless dreams born of the changeless yet ever changing sea as one gazes into its depths, full of charm and mystery.

Faraway cries caused me to turn my head and look about.

A flock of screaming sea gulls flying above me had attracted my attention. I was just about to leave the rocks when new cries reached my ears. These were piteous and broken like the sobs of a child. I arose and, looking toward the island where the lighthouse of Poulains stands, saw Mother Le Pelletier, the wife of the lighthouse keeper, down on her knees, waving her handkerchief, weeping and calling for help.

Workmen, busy in the neighborhood, saw the woman just as I did. In a few moments the little island was crowded with people.

What a painful, what a terrifying spectacle!

Opposite the point of the island, 300 meters from land, lay the boat L'Enfant du Desert capsized. Her sails were under water, and on her keel, which rose in the air, clung Eugene Gouenantin, the orphan. His face was as pale as a winding sheet, his eyes were closed, and his head, a plaything for the waves, swayed from right to left. With my telescope I could follow the entire development of the tragedy.

The child had become helpless and was just about to loosen his hold of the boat. Right near him lay Michel Samzon, sleeping the edge of the keel continually crying continually for help.

Quite likely.

Teacher—Willie, if your father gave

you 10 cents and then took away 4 and gave them to your brother, what would that make?
